

1. Air Line Oil Lubricator

Air Line Oil Lubricator

Airline Lubricator is ideally designed to provide adequate lubrication to Pneumatic Tools which is very much essential for their efficient working and up keeping of its performance, improving the functioning of pneumatic equipment, reduces wear & tear, and increases productivity.

Technical Data for VK - 30

Sr.No	Description	Metric	Imperial
1	Capacity Air Flow	1.5 - 8.0 m3/min	53-282
2	Oil Volume	1.3 Ltrs	0.29 Gallons
3	Weight	3.0 Kgs.	6.6 lbs
4	Max. Working Pressure	20 bar	290 psi
5	Hose Dia Inside	25 mm	1"
6	Connecting Thread		1" B.S.P.

Technical Data for VK - 40

Sr.No	Description	Imperial
1	Pressure.Max. in p.s.i	150
2	Air-Flow.Max. in C.F.M	600
3	End Connection in B.S.P	1 1/2"
4	Hight Approx. in mm	400
5	Outside Dia in mm	209
6	Oil Volume	5 Ltrs
